## 2017 PROJECT LIST

Below is a sample of the manuscripts I edited in 2017:

### **Cardiology**

Gestational hypertension  
Hypertension and bone mineral density  
Postural orthostatic tachycardia syndrome

### **Endocrinology/Metabolism**

Diabetes and perfluorinated compound exposure  
Glycemic status, inflammation, and periodontitis  
Malnutrition assessment during chemotherapy  
Novel *CYP11B1* mutations causing 11B-hydroxylase deficiency

### **Gastroenterology/Hepatology**

Hepatocellular carcinoma risk assessment in alcoholic cirrhosis  
Intestinal mucosal barrier and gut microbiota  
Novel inhibitor of hepatitis C virus infection

### **Maternal and Infant Health/Pediatrics**

Child lupus and mesenteric vasculitis  
Early onset scoliosis assessment  
Hypotension among very low birthweight infants  
Maternal antiepileptic medication and newborn hydrocephalus

### **Oncology**

Lipid metabolism and aromatase inhibitors  
MMP-9 expression and gastric cancer risk  
Olanzapine therapy for nausea caused by chemotherapy
